

Knowllence, FMEA experts of the BASSETTI GROUP

Design FMEA & MSR	Process FMEA	AIAG & VDA, ISO 26262, IAQG, ISO 14971, HACCP
Functional Specifications	Reverse FMEA DRBFM	State of the Art AI-Features
P-Diagram, FAST-/SADT-Diagram Blockdiagram	Process Flowcharts	Action Plan
Validation Plan	Control Plan Work instructions	API, Middleware
Special Characteristics (SC)	8D, APQP, Nonconformity, SPC	Multi-Language user interface
Preliminary Hazard Analysis (PHA)	Automatic CAD data import	Storyboard, Change-Log, Traceability

Stress-Free Audits & Continuous Improvement

- Fully compliant with all standards and requirements (CSR)
- Graphic tools and data visualization
- Management of versioning and access rights
- Digital continuity and data-sharing for optimal collaboration
- Foundation FMEA for lessons learned
- E-learning, training and support from our experts

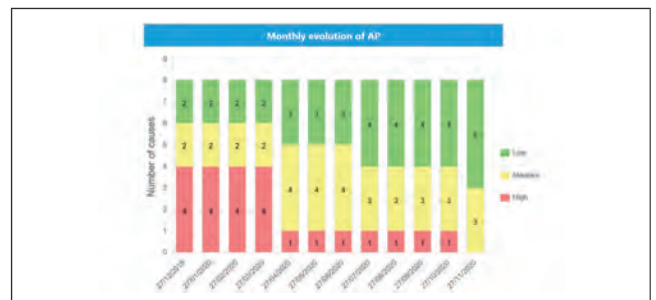

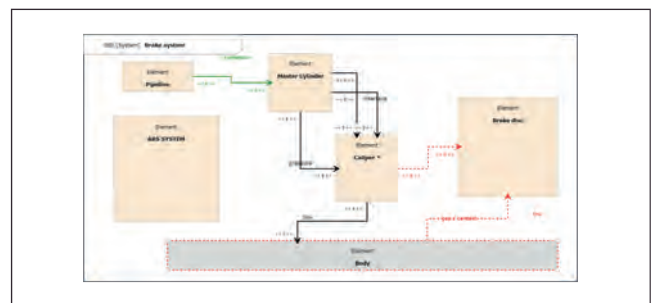

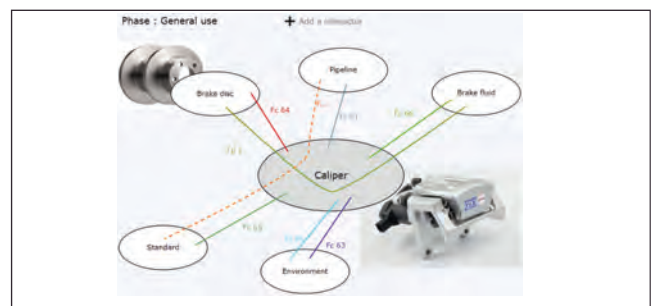

One technology, multiple solutions

Our FMEA tool is seamlessly integrated into **TEEXMA**, the **BASSETTI Group's** software platform. As a result, it can be flexibly expanded with e.g.:

- **TEEXMA for Quality:** The all-in-one solution for quality management
- **TEEXMA for MES:** The solution for monitoring and managing all production activities
- **TEEXMA for LIMS:** The software to digitalize all your laboratory activities in R&D and QC

The efficient, compliant and simple FMEA web application

- **Intuitive user interface** for direct access to all steps of your FMEA analysis
- **Fast, reliable & user-friendly**, when carrying out Reverse FMEA and other processes
- **Fully compliant with all necessary standards** like the AIAG & VDA FMEA handbook, as well as ISO 26262, IAQG, ISO 14971 and HACCP
- **Maximum efficiency** through complete digital continuity: From functional specifications to Design- & Process-FMEA, to the control plan
- **Practical and actionable:** Use & integrate best practices and feedback effectively with lessons learned and the Foundation FMEA
- **Seamless integration** into existing quality management systems such as TEEXMA and many more
- **Direct communication made easy:** With customers, auditors or internal teams, anytime and anywhere
- **Full reactivity & flexibility:** Respond quick & confidently to changes in standards, requirements and internal processes
- **Web-based and secure:** Select between On-Premise or Cloud (SaaS)
- **Digitization made easy:** Convert existing FMEA documents (e.g. from Excel) in no time at all
- **Perfect training through blended learning:** Optimal mix of personal training & our E-Learning platform
